VOL 2 No 1

JANUARY 1966

EDITORIAL

Leaving the usual editorial moans and groans until last, I would like to thank all readers who sent me Christmas cards, I regret that it was not possible to answer them all personally. My thanks also go to all the people who are still awaiting replies to letters of long standing, but I assure them that they will receive replies as soon as possible.

1966 promises to be an exciting year for Y.A.N. and we hope it will emerge as one of the leading local magazines in the country. We are pleased to announce that the following major articles are in hand for 1966 - Topcliffe Neptunes and Marathons, Blackburn Beverley, Avro (H.S.) 748 production list, U.S.A.F. visitors to R.A.F. Driffield during Thor occupation, Blackburn built Balliol, Frentices, Barracudas and Swordfish, Blackburn Kangaroo, Leconfield Hunters and Airspeed A.S.4. We trust that this list will spur potential contributors on to dizzy heights!!!

There are many fascinating aspects of Yorkshire Aviation that are still left uncovered however - to quote a few examples - Yeadon built Lancasters, Sabres and Hornets at Linton, the Slingsby Sailplanes, the Felixstowe flying boats at Hornsea Mere, the Airacobras at Acaster Malbis, as well as many many others. It is regrettable that material pertaining to the military side is more forthcoming than that to the civil side. The editorial staff find this anomaly to be rather puzzling, there is no lack of subjects for the clevinned readers to write about. Sherburn-in-Elmet is a civil field of very long standing and it would be rather interesting to see a written history of this field. There has also been no shortage of civil crashes either. A series of histories of the more interesting Yeadon residents and ex residents would also be of interest. How about it you civil fanatics?

Little news from Yeadon this issue except to say that B.K.S. are not purchasing any Viscounts from a certain Middle East Airline, whose main export to this country would probably only be sand. We plan on publishing the 748 story when these depart, later in the year as a form of memorial service to a fine airliner. Who would like to say how much the 748 has helped put Leeds and Bradford Airport on the map? Another touch of nostalgia is evinced from the news that 32 Sqn. has departed from Leconfield and 60 M.U. has moved in. No more will be treated to the superb aerobatics of Nos. 19 and 32 Sqns. Lightnings.

After giving out the bad news we now move on to the good. As everybody probably knows by now, American light aircraft are to be built in Yorkshire under licence. Although these are the only confirmed facts, and we have no claim to clair-cynacy, it has been suggested that Slingsby Sailplanes Ltd. are to build these aircraft. But whoever builds what, we must say that we are delighted to see a resurgence in the Yorkshire Aviation Industry.

It is regrettable that the Yeadon movements are incomplete this month, but if we do not receive contributions we cannot print them!! Surely there are readers who log Yeadon movements. Is it too much to ask for a list?

(M.W.S.)

WE NEED YOUR CONTRIBUTIONS FOR 1966

Yorkshire Air News is published monthly by the West Riding Branch of Air-Britain for private circulation only. Due acknowledgement should be given for information reprinted elsewhere.

Closing date for contributions to the February issue will be March 5th.

FOR SALE

A complete 32 page duplicated list of all visiting aircraft movements into Leeds and Bradford Airport for the past four years - Jan 62 - Dec 65, can be obtained for 5/-a (including postage) from:-

P.T. Horne,
22 The Moorway,
Tranmere Park,
Guiseley, LEEDS.

The following is a list of all aerodromes currently in use in the county and the aircraft that are based on them. All are current to May 1966. Lists of Jet Provosts have been deliberately left out as we hope to run a complete list of these later on in the year, on the premise that we can obtain security clearance.

DRAUGH Home of Hawker-Siddeley (Blackburn Div.). Construction at the moment is concentrated on the B.S.Buccaneer S.2. The latter are flight tested at Holme-on-Spalding Moor. Also based here are the Chipmunks of the Hull U.A.S. namely:- WZ710, ZD576, WZ642, WP918 and WG460 coded "A" to "E" respectively. Company aircraft based here are:- G-ARBU Blackburn B-2, G-ARJC Dragon Rapide and G-AMJ Dove 1.

CATFOSS Seldom used, but light aircraft have been known to make an appearance here. Two aircraft based there.

GATTERTICK Home of R.A.F. Fire Fighting School and No. 649 Gliding School - the latter no Cadets YF70k, XE797, XE808, ZM133 and two Sudberghs WZ319 and WZ325. For latest news of F.T.S. aircraft see page 54.

CHURCH FENTON Home of No. 7 F.T.S. with Jet Provosts. Vampire T.11 WZ552 code "A" has been here since 8/65 and is probably used for fire practice. The S.S.A.F.A. display team here annually and Vampire T.11 WZ572, Javelin F.A.W.6 XA830 are kept here for display purposes only. The gate aircraft is Spitfire VB G-BHM code PR-D.

No. 7 F.T.S. is to be gradually run down until C.M. ceases to be a Flying Training Station in 12/66, but 7 F.T.S. will be replaced by another unit. (Possible Filton base).

COFTON Used by crop-spraying aircraft during Summer.

COLWICH HALL SNAITH Creda Ltd. have an airstrip here - no aircraft based as yet.

CROSSLAND MOOR, MIDDLESFIELD Three residents only - G-AMDD Dove 6 temporarily replacing G-ARBD Dove 3 until the latter returns from Linton suitably "Rileyzied", G-ARJC Horizon or G-ARCF Mete-Sokol.

DALE IN Ex R.A.F. field - G-ADMU Cessna 172P only.

DERCASTER Only powered aircraft here is G-AMH Auster 6A. A dozen or so private gliders are also here (Offers of a list are welcome).

DISHFORTH R.A.F. Field. Closed at end of 1965 when the resident unit 60 M.U. moved to Leek Wold. Leeds U.A.S. with Chipmunks WG316, WG419, WZ305, WP915 were also here, but as we have no news as to their new base. No. 3 A.E.F. also operated Chipmunks from here, and WG307, WG321, WK590. Again we have no news of their base.

The scrapheap at the end of 1965 contained Gaunt XH103/15, XH542/14 both of 4 F.T.S., Jet Provosts XP682 "H" 7 F.T.S., XP639 "B" 8 F.T.S., XH631 "G" 3 F.T.S. and XH728 "I" 3 F.T.S., Lightning F.2 YN785 "C" 32 Sqn., Meteor WA109 A and A.R.F., Varsity WZ529 "M" A.E.F. and Ansons VH371, ZJ8 and VP536.

The two Gaunts both "15" of 4 F.T.S. seem to be a problem, and as XH542 was positively identified as such on 25/7/65 by the Editor, XH543 would seem very suspect.

It remains to be seen whether the scrap will stay here or whether it will be moved elsewhere.

DITTFIELD Closed down, but the grapevine has been buzzing with rumours of its re-opening for the last six months. True or untrue?

DIXONTON Occasionally used by visiting light aircraft and was used last year by B.M.C. on a few charter flights.

FINNINGLEY Home of 230 S.C.U. and B.C.D.U. both using Vulcans. A worked Javelin on the field is XH892. Traditionally open on Battle of Britain Day.

HOLME-ON-SPALDING MOOR Flight testing field for B.S. (Blackburn Div.). The wreckage of Buccaneer S.1 XK524 is here. Has occasional S.A.F. visitors.

LEGONFIELD Home of 60 M.U. and 202 Sqn. "A" Flight. 60 M.U. has been looking after Jaguars only so far and No. 202 Sqn. is equipped with Whirlwind H.A.R.17's - XD181 "B", ZA77 "F", XP404 "H" and XM655. XJ714 at present un-coded. Spitfire PR.9B is on the gate.

LIMEDS AND BRADFORD (YEADON) - Biggest civil airfield in Yorkshire.

B.K.S. Fleet (Yeaton only) - Avro 748's G-ARRW, G-AMPL, G-ATAM and DC-3's G-ATWD, G-AMBL, G-APPG. Private and Executive aircraft:-

G-AMIF	P6 Mow Gull	G-AMIZ	J/IN Alpha	G-ARPR	Auster J/4
G-AJCY	J/1 Autocrat	G-AOKX	Chipmunk	G-ACSU	Chipmunk
G-APAF	Auster 5	G-APMV	Aero 145 Super	G-APVS	Cessna 172
G-APWY	Pote 6	G-ARLA	Tri-Pacer	G-ARBT	Vickers 111
G-AROC	Cessna 175B	G-ARTT	N.S.880B Rallye	G-ARUS	Pisgah P.16
G-ARWF	Cessna 310C	G-ASMP	95A Travel-Air	G-ASBU	Twin Comanche
G-ASRV	B95-A55 Baron	G-ASSR	Twin Comanche	G-ASTD	Astro "G"
G-ASTU	Aero 145	G-ASUB	Boeing 747S	G-ASTP	Cessna 170
G-ASTV	Cessna 310C	G-ATMV	Cessna 150P	G-ARBL	Sparrow 160

Yorkshire Light Aircraft Ltd. (Mileforth PA 755) work on 16/1 - non-resident), - Cessna 250, G-ARJC Cessna 172B, G-ASVLL, G-Terrific 1. Also on the premises are the remains of G-ARBT Cessna 172B which was bought by T.L.A. after an accident.

BLINDING down of No. 1 A.F.C. with just over 200. The 90 ft. windscreen was also broken
at ASFT Mathematics and Technical Training Wing. The number of aircraft in service has
not been disclosed but it appears that eight were fully present at 1800 hours. Fourteen
aircraft have been sent to the Booker Ground Flying School operating Hastings & Oxford
University F.T.S. The Hastings are TC403, TC412, TC416, TC420, TC421, TC422 and TC423 all coded
with "Saint George". Variations are TC402, TC407, TC408 and TC412 coded "S" to "F" respectively.

WHITBURN-CLIFFE Home of No. 1 E.T.S. equipped with Jet Provosts, Vampirets and Chipmunks. A photograph is shown on page 3, and the Vampires are a little unseated at the moment but the following have been seen recently XA919, XA922, XE657, WZ662, AD468 and XE756 coded S1, S2,
S3, S4 and S5 respectively. A wrecked aircraft is present at the north end of the field
and in the ground about. An Jet Provost XA966. Also at Barrow is No. 642 Gliding School -
see page 3.

HALIFAX An ex R.A.F. field used occasionally by visiting light aircraft. Charter Cessna 172B
is based here.

MUNICH REDDITCH Home of Solingby Anti-plane Unit, a sight on 24/1 produced XTM60, XA302
and XA303, Delta BEA 250, 150, 150 with racing nos. 212, 312, 10 and 108 respectively. BA440 has registration 35400. Helping the expert alive was another Dart
unit. Swallow KFM 261 s/n 140 was also present. An unidentifid glider proved was
based, (uniden.).

WILTON (DORSET) Manoeuvre Centre is being constructed at Melcombe Regis School.

WESTON-SUPER-MARE Used by South-West Aero Club. The aircraft are 3 BAC B602 Tri-Pacer, 2 BAC
Hive 7M, 350, 360K, 360K2, 360K3, 360K4, 360K5, 360K6, 360K7, 360K8, 360K9.

LEEDS-LAKE ex R.A.F. fields. Two aircraft are based here - G-ABSD and G-ANED Tiger Moth,
a de Havilland Hornet and G-ARSK Sparrow II.

BRISTOL An ex R.A.F. field. It is believed that no aircraft are actually based here but
it is used by Jet Provosts and Gliders. One wreck of Jet Provost F.3 XA873 "H" and Grumman Baby
Hawk were recovered here in 1947 and after an identification, demilitarized glider XW162
which is 111-KMF, a light aircraft and 100 ft. wingspan - 15 ft. 6 in. overall length and
10 ft. 6 in. wingspan. Manoeuvre G-ABDN, G-AQH, G-ARLO and G-ANED. Tiger Moth G-ARSH and
Dove G-AFH.

SOUTH SHIRE A 4 1/2 acre field, the only airfield around here is G-AEAD "Pemberton". G-ABD is
also in operation - Robin Skylark, BAC 1-11, Bristol Bulldog No. 2, DCA653 Skylark (s/n
1543), BA655 Skylark s/n 1550, BA660 Skylark s/n 1551, BA667 Skylark 50 (s/n T320),
BA669 Skylark 50 (s/n T321) named "Fox Van" 1552, Skylark L No. 10, BA669 Olympia, BA674 T. M.
DAAT553, BA675 (s/n 1557), BA676, T. M., (s/n 1558), BA677 (s/n 1559) and BA680 (s/n 1560) were
all seen here. BA678.

SHEFFIELD (Mr. Brinsford) Small strip of land between the two railway lines.

WALKER (Lancaster) Water front buildings and embankment have 6/6 by 10 ft. They
are 100 ft. apart.

TAUNTON Home of The Northern Communications Squadron, now the Air Movements School. The
H.F.S. (2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th) and the
Dorset H.F.S. and 31st as Beauforts XA765 to 771 inclusive and XA781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800 and 801 and 802 "D", "G", "H", "J", "K", "L", "M", "N", "O", "P", "R", "S", "T", "U", "V", "W", "X", "Y", "Z" and "H" respectively.

GOMBLETON This field is still up for sale together with the resident aircraft, two Chipmunks G-ABII and G-ABIV.

WOLSTENHOLME (Leeds) - see 307.

TRENTON (Tiverton) This field is used for aerobatics. Our flying report -

1/12/52 - Aerobatic team based here consisting of Lestertown.

1/12/52 - A pilot made forced landing at Lestertown.

1/13/52 - Cherokee L 19-120 crashed after attempting to take off from a field in Yorkshire
after making a forced landing.

1/14/52 - 200 ft. of G-ABII are based at Weston. 3100 hours. (P.A.S. and R.A.F. AIR NEWS)

ASHTON-IN-MERIONEY (Lancaster) - see 361.

2/2/52 - 200 ft. Robin - see 179.

2/2/52 - 200 ft. and 300 ft. Avro 778

2/2/52 - 200 ft. and 250 ft. - see 139.

2/2/52 - 200 ft. Avro 778 - see 139.

2/2/52 - 200 ft. - see 139.

2/2/52 - 200 ft. and 250 ft. - see 139.

2/2/52 - 200 ft. and 250 ft. - see 139.

2/2/52 - 200 ft. and 250 ft. - see 139.

2/2/52 - 200 ft. and 250 ft. - see 139.

2/2/52 - 200 ft. and 250 ft. - see 139.

2/2/52 - 200 ft. and 250 ft. - see 139.

On 2/2 a derrick and a temporary aircraft hangar are a queer story for 60 ft. (The dimensions
as reported by the telephone - 16 ft. by 80 ft. by 80 ft. 8 in.) (P.A.S.).

RIBBLETON-ON-HULL. (See page 46) - A new 1000 ft. long runway has been opened at Ribbleton-on-Hull, Lancashire, 1st Oct 65, by Her Majesty Queen Elizabeth II. It is referred to on page 49 as Speeton which is a grass strip used for pre-war joy riding. (P.A.J.).

A DAY ON AIRWAYS

By F.W.Sykes

It was Tuesday December 26th, at the crack of 0935 when a convoy of three cars left Leeds and Bradford Airport. The sky was clear, the visibility practically unlimited - and the temperature -4°C. Pulling our coats around us and turning up the heaters we turned south down the Harrogate Road and set course. Seventy uneventful minutes later we drove south down the Harrogate Road and set course. Seventy uneventful minutes later we drove south down the Harrogate Road and set course. The first sound we heard was the rapidly diminishing roar of Baktota "MPZ" northbound for Garton. The second sound we heard was the hiss of air rapidly leaving a rear tyre. Whilst repairs were made to the tyre we set up our radios and logged various aircraft passing over "the Pole". With the weather still persisting we decided to exercise care with a game of football. This proved warning but hazardous in the main road. Still, with no accidents to persons or radio we eventually gave in at 4pm and returned independently to the Leeds and Bradford Airport. The following is a list of aircraft logged with time and direction.

1047	"MPZ"	Douglas DC-3	N	1103	"NHE"	Britannia	N	1450	"PWG"	Herald	N
1048	"PEC"	Vanguard	S	1129	"TMA"	H.S.748	E	1336	25532	G-431	S
1048	50821	R4D8 (U.S.N)	S	1136	"CPY"	Dove 6	N	1337	G-AMW	Douglas DC-3	S
1059	"MAD"	Ambassador	S	1138	"FKW"	Viscount	S	1339	G-ATW	Cessna 150	
1105	"PGG"	Vanguard	S	1202	"TNG"	Herald	E			Circle	
1106	"SPL"	H.S.748	W	1214	"SGD"	Scandinavian 37	N	1339	G-APEJ	Vanguard	S
1108	"PEB"	Vanguard	N	1222	"TAM"	H.S.748	W	1441	G-AOL	Britannia	S

Also logged eastbound on Blue 1 was SE-CFD Curtiss C-46 over Ottringham 1153.

A.A.F.BINNSROCK

More information now to hand supplements that given on page 48 - No. 5 Sqn. was officially disbanded at Geilenkirchen on 7/10/65 and reformed at Binbrook on 8/10/65 with Lightning. The first received was a T.5 XS451 on 9/11/65.

No. 85 Sqn. is the target facilities Sqn. and is sometimes referred to as the T.P.S. - No. 85 Sqn. is the target facilities Sqn. and is sometimes referred to as the T.P.S. - The Meteor T.7 WH223 is now known to be coded "Y" and WH216 is/was No. 23 Sqn. "Black" with a large eagle painted on its side.

The D.F.C.S. also operates the following Hunter (additional to page 48) - XG206 "E", XG208, XG224, XF504 "F" and XE623. Also used was XE624 "B" which went to No. 1 Sqn. as "B".

The C.F.S. is also based here and has Hunter N6's XG210 "A", XF527 "P" and Meteor T.7 WH226 "A".

In addition to the C.F.S. the A.F.D.S. is here and has recently received two new Lightnings F3A XR753 "T" on 16/11/65 and XR752 (F.) on 26/11/65.

The Belgian Pembroke should read RM-2 not RM-Z (P.A.J. and M.T.Powell).

R.A.F.GATTERICK

Not actually discussed as stated on page 46, but is the home of the R.A.F. Fire Fighting School. Latest arrivals here are Canberra B.2 WH735 from Yatessbury, and an all black Hunter (No serials), which is believed to be WP147/780M which has stood at the gate of R.A.F. Weston for many years.

Anson TX232, Hunter -/7506M, and Javelin XA816 have been burnt.

Also here are Venom NF3 7565M/WK849, Javelin 7820M/XH901E and Valiant WP214. (R.D.Allison).

R.A.F.LINTON-ON-OUSE

The Jet Provost XP661/M mentioned on page 45 is ex 6 F.T.S. not 1 F.T.S. This aircraft suffered damage on 27/3/63 and is now grounded here. The Vampire T.11 XK624 (P.45) is coded "79" and is ex 4 F.T.S. and No.23 Group Communications Flight.

The No. 1 F.T.S. Chipmunk list on page 36 can be amended as follows:-

"A"	WP807	"B"	WP799	"C"	WG308	"D"	WK627	"E"	WK762	"F"	WK629
"G"	WK517	"H"	WB586	replaced by VG564.	"I"	WK517	re-coded "U",	"J"	WK550		
"K"	WP783	replaced by WG469.	"L"	WK554	replaced by WG407.	"M"	WG476	"N"	WP857		
"O"	WD384	replaced by WG479.	"P"	WZ884	"Q"	WZ862	"U"	WK517	re-coded "G"		

The full list of 642 Glider School gliders are as follows :- Sedbergh WB939/X, WDS/8/8
Gadets WT905/S (Ex W), WT918/H, XA288/D, and XH9/M (R.D.Allison).

L.B.A. NEWS - Taken direct from "News From L.B.A."

L.B.A., which handled a record 274,302 passengers in 1965 will almost certainly handle some 335,000 in 1966, it is confidently expected.

In the last seven years, passenger totals have increased consistently; in 1959 the airline handled 31,272 passengers; in 1960 45,155; 1961 51,294; 1962 111,188; 1963 115,170; 1964 157,378; 1965 208,900; 1966 274,302.

Freight handled during 1967 totalled 1,310 short tons but it is fully expected that this total will build up rapidly with the completion of the new terminal building which will be a section devoted to freight handling.

Only total expected to decrease in 1966 will be that for air transport movements of which there were 40,554 out of a total 36,721 movements at the airports during 1965.

AIRCRAFT MANUFACTURED IN YORKSHIRE

As promised in a previous issue here is a list of aircraft manufacturers in Yorkshire. Most appear to have been built for export, but at the open to acquisition.

The 3 largest aircraft firms were engaged in war work and later bybridge, inc. the largest single plant in the North. No other need be recorded.

Martin, Currie and British Siddeley, Leeds built the Hawker and C.M.S. Biplane to R3000.

Fighter and Torp. Bomber, so far as is known their only manufactured Supermarine War-

Roles. Airspeed Aircraft Co. Ltd., Riccall, York - built the A.S.4.

Phoenix Dynamo Mfg. Co., Bradford - became English Electric - built the Phoenix series of Flying boats. (n.s.).

BLACKBURN BAFFINS IN NEW ZEALAND

The following article is the first of an historical series on Blackburn aircraft - this particular story owes its origins to an article appearing in the magazine of the Aviation Historical Society of New Zealand.

The N.Z. Air Department mentions that twenty-four Baffins were supplied to N.Z. but an undated news clipping quotes twenty-nine as the initial procurement of these in early 1938. "Wings" 5/10/38 also quotes twenty-nine. The Baffins were originally obtained for the then new Territorial Air Force Squadrons at Auckland, Wellington and Christchurch. Although the Baffins were originally operated in their P.A.A. serials the block NZ151 to NZ174 was allocated to them and although of this block NZ151 to NZ160 was later taken up by Walrus aircraft, it is certain that all Baffins had been withdrawn by the time the Walrus began to arrive. All Baffins delivered to the N.Z.T.A.F. were taken from R.N. surplus stocks. The aircraft so obtained arrived in N.Z. still wearing their P.A.A. serials, and in many cases, still retaining squadron and unit markings. The Baffins were operated in R.N. serials for a long time and it is not entirely certain that any or all of these were ever converted to R.N.Z.A.F. serials. Only thirteen of the aircraft delivered are known - they are as follows - S1766, S1425, S143, S144, S145, S155, S157, S164, S165, S166, S167, S168 and K4078. (M.W.S.)

LIGHTNINGS OF NO. 19 SQUADRON AT LETCHFIELD

It would appear that we havent published a list of No. 19's Lightnings yet, and as they have been in the news of late, some readers have taken us to task for not publishing one. The following list should set the record straight.

Mk. F2	XN727 "A"	XN730 "B"	XN724 "C"	XN775 "D"	XN776 "E"	XN778 "F"
	XN779 "G"	XN780 "H"	XN781 "I"	XN782 "K"	XN784 "L"	XN787 "M"
	XN791 "P"					
Mk. T4	XN988 "T" to Q	XN991 "P"	Bx 991/226 O.C.U.			(P.A.J.).

MARTIN Located south of Sheffield and was a barrage balloon station during W.W.II. We wonder if anything nice went on there. It may have been used as a scrapheap. Any offers?

(M.W.S. ask J.J. Coop).

CORRECTIONS TO VOL 1 NO 2 P.48

Leeds and Bradford movements. - 2/11 Delete 'SXY' aircraft diverted. 5/11 add 'LIIK, 10/11 G-ASNF', 'RFZ', 'MID', 'SMJ' and 'PNX' for 11/11.

26/11 G-ARYG should read 26/11.

Hethersett - the Hawk Trainer on 6/11 was G-AKAT.

Another correction is that B.K.S. are only calling thru Ambassadors. (C.R.).

GOODS AND BADS

G-ARCP Comanche 250 overshot and was damaged at Plymouth 18/12. Remains to Y.L.A.

G-ATHY Cessna 150F delivered to Yeoman with only eleven hours on the clock.

Gibair are reported as being interested in one of B.K.S.'s 748.

B.K.S. Dekute G-AMMK reportedly sold to the now Dutch operator Transavia (Limburg).

OVERFLY REPORT (J.A.S.).
