Society news....

Alan Sinfield

Sponsored by "Air Yorkshire Supporter"

Jack Harrision – It is with regret and sadness that I have to report that Air Yorkshire member Jack Harrision has passed away. Jack was introduced to the society by Rey Preston well over 10 years ago and Jack's next door neighbour Brian Sunderland joined Air Yorkshire soon afterwards. Jack soon became an intergral part of the society attending most monthly meetings and was a regular at the Multiflight cafe during the week. I know that Jack enjoyed the camaraderie of Air Yorkshire and had great fun at the cafe with his wicked and dry sense of humour and had a great relationship with David and Anna Chaplin and he would say to Anna "don't you dare touch my knee", All in good jest of course. I remember on one occasion we were going on a tour of the airport and he hadn't got the right photo ID, which he needed, so he had to be left behind and he never let us forget it.... A lovely man and Jack, Rest in Peace.

Binders – One of our members is interested in obtaining binder to store the Air Yorkshire magazines. If enough members are interested we could look into finding some that can be personnalised to the society. If you are interested let me know

Murgatroyds - 19 November 2021 at 12 noon. If you want to join us, contact Geoff Ward g_ward76@hotmail.com or 0113 270 9980

AGM- The AGM will again be held on ZOOM on Wednesday 3 November @7.30pm. It is vital that we have a good number of attendies, so please put it in your diary now

Memorable Flights in the U.S. and Canada

I sometimes glance through my Flightlog and relive memorable flights taken in the past. Here are two of them:

A scenic flight over the Grand Canyon, is one of the great flying experiences in the United States. I was lucky enough to enjoy this in 1995, by travelling on a Scenic Airlines D.H.C. Twin Otter. It was one of the "Vistaliner" versions, with deep windows, intended for sightseeing. The trip was breathtaking. Flying over the Grand Canyon is really the only way to appreciate its enormity. It is, after all, around 120 miles long and very deep and wide.

Taking off from Grand Canyon Airport, located on the South Rim, the aircraft spent some time flying along the Canyon. The pilot provided a good commentary, making sure we did not miss the most stunning sights. The aircraft then climbed, to allow us to fly over the North Rim. This is considerably higher than the South Rim.

All too soon, our 45 minutes flight came to an end, with a touchdown back at Grand Canyon Airport. This was a most absorbing trip and one not to be missed, if you ever have the chance.

We now move to Canada in 2011 and Vancouver Harbour Airport. This is basically a City Centre airport on water, with two small terminals and a number of jetties, giving access to the parked aircraft. Harbour Air operate floatplane flights from here to a series of islands in the Strait of Georgia, between Vancouver City and Vancouver Island.

Some of the services are provided on an on demand basis, as passenger numbers to and from the smaller islands can be quite small. Apart from human cargo some freight and mail is carried. It is possible to buy a joyride ticket for a return trip lasting around 1 ½ hours. This is known as the Mail Run, which is what it basically is. The route varies each day, but typically includes three or four take offs and landings on water, with some flights taking just a few minutes.

These were my first floatplane flights and were particularly enjoyable. The take offs and landing being really smooth, more so than is usual on dry land. The aircraft, a D.H.C. Turbo Otter was equipped with 13 passenger seats. All offered a good view. Upon completion of each landing run, the aircraft simply floated to the jetty and was secured by a staff member. I was lucky to enjoy both good weather and stunning scenery. This was definitely a series of flights to remember.

North Yorkshire Airfield Visits.... Mike Storey

Report on North Yorkshire Airfields visits w/c 24 May

With the Government instructions to Stay in UK for this years holidays, my wife and I booked a very nice timber lodge for 1- week in North Yorkshire in a small village called Nawton roughly half way between Helmsley and Kirbymoorside. This was very nicely placed close to Sutton Bank (Gliding), Bagby (Light Aircraft) and Wombledon (Aerobatics). We did the beautiful walk from Sutton Bank around the top of the escarpment calling at the (not so) White Horse and visited the Yorkshire Gliding Club for some Gliders and tug Aircraft.

My annual visit to Bagby was once again very interesting and having asked permission in the old Club house I was given freedom to roam the Airfield.

First stop was on the opposite side of the field to the Engineering hangers, here I met the very friendly manager who was only too pleased to answer all my questions.

Amongst the Aircraft parked were the following-

G-PUSI	CESSNA 303 (a very rare bird)
G-BSPE	CESSNA 182
G-AXED	PIPER PAWNEE (Wolds gliding club)
G-BOER	PIPER PA28 WARRIOR
G-EFER	PIPER SUPER CUB

Inside the various hangars were the following-

G-GEFF	PILATUS PC12
G-MRMA	CESSNA 182
G-JAFS	PIPER PA32R SARATOGA
N6153S	CESSNA 182
G-ARLR	BEAGLE TERRIER
G-CENO	AERO SPOOL DYNAMIC
G-AYZK	JODEL DR1050
G-CFLD	IKARUS
G-BIAC	RALLYE
G-SIMY	PIPER CHEROKEE SIX

G-BWSI CAVALIER
 G-XALZ RANS SUPER SIX
 G-BUGZ SLINGSBY VENTURE
 G-PAWS AA5 CHEETAH
 G-GBUE ROBIN DR400
 G-PDGF AS 350B2 ECURUEIL WAS PARKED ON THE GRASS

Also several other micro light aircraft.

The new entrance road to the Airfield has now been completed which is lower down the village street nearer to the main road. This entrance now has some very nice new gates adorned with Aircraft motifs(see photos).The new club house building is proceeding although rather slowly at the moment due to lack of business due to Covid, should be great when finished.

Aircraft seen on my visit to Yorkshire Gliding Club-

G-EFER PIPER SUPER CUB
 G-BETM PIPER PA25 PAWNEE
 G-CLEW-G-DDPO-G-CKJH-G-CHEF-G-CJVZ-G-CKFN-G-CHMD-G-CKLW-G-CKJH-

BGA945(BSY)

Entrance to the Airfield at Wombleton is tricky as it is down a narrow track and then only part of the old runways and the tower are accessible. The current Aerobatic aircraft are in a new hangar on the far side of the Airfield which is not available to view.

However most evenings I was treated to an aerobatic display by two of the residents G-NGTC EXTRA NG and another in a Lime green scheme which I was unable to log. For a mostly rural area there was plenty of Aircraft passing overhead including- G-ARJU Apache-and Hawks from RAF LEEMING.

Friday 27th August Loch Lomond a Puma flying at less than 500 feet.
There were three of them serials XW204/XW213 and ZJ957

Which is this one? Andy Coverdale
